Over time, will good prevail, or will evil overpower?

## A step into the unknown

How did Dr Nice and Mr Nasty make out?

Score Mr Hyde's progress for each three-round game, simply showing the number of steps he took. Hyde only wins if he gets 10 steps by the end of the three rounds.

Remember, it's the gap between **Jekyll's** trick-count and **Hyde's** that is the score for each round.
